What Makes Each Campus Unique?

Lakewood 7-12: Situated in Downtown Lakewood, the campus is a nurturing, safe, and inviting place to learn! There are few limits to what is possible within this special community. In some ways, life at Lakewood is a lot like life at other schools but in many ways, it is quite different. The program at Lakewood is designed to foster engagement both academically and socially, with the aim of preparing the student for a happy, productive adult life consistent with his or her unique personality. Students are very involved with the school, activities and choices about what happens here. Lakewood is a place for students to find a voice and to make a positive difference as they explore their personal interests and goals for life.

North Olmsted K-12: North Olmsted is a comprehensive, K-12 campus that fosters community and caters to a child's specific needs. Holistic development of the student as a person enriches their learning experience. At all campuses, we meet each individual student where they are and assist them to where they need to be. We can learn and practice skills, hands-on, as an entire school, through immersion days. All the teachers at AEA work alongside the students, fostering characteristics to be successful. Teachers at AEA utilize resources to develop lessons that are innovative and interesting yet grasp the necessary pedagogical fundamentals of education. Much of our teaching and learning is using technology. Our teachers are passionate about teaching and their goals include exceptional communication with parents and families.

Strongsville K-12: Our campus provides a setting where your child will be encouraged academically and developmentally. We get to know your child and meet them where their academic needs are and continue to grow their knowledge and love of learning. Our teachers are all highly qualified in their content area and work hard to create fun, engaging, hands-on lessons to ensure the students are learning. We use technology regularly; class sizes are small to ensure that differentiation can occur throughout the day. AEA recognizes that educating the whole child is important; we provide opportunities for discussion about important character traits and give students opportunities to practice those traits in school. Traditional classes such as physical education, art, and music, are also taught.

"Education is what remains after one has forgotten what one has learned in school." A. Einstein

Administrative Offices located at 25000 Country Club, Suite 135, North Olmsted, Ohio 44070

Our Schools continue to grow by referrals from our current families and students. Thank you for recommending AEA.

FAQ's

| | |
|--|---|
| What is a Community School? | Albert Einstein Academy is composed of three (3) community schools, which are often called charter schools nationally and in other states, and are public schools created in Ohio law; are independent of any school district; and are part of the state's education program. Community schools are public schools of choice and are state and federally funded. Community schools established under Chapter 3314 of the Revised Code are considered a school district and as such must comply with all state and federal laws, including special education statutes and rules. |
